

Available Gate Tube Colors:

*The new Continuum hurdle has been designed to be the safest, fastest, most unobtrusive hurdle the rules will allow.*

### FEATURES:

- New button latch design
- All come standard with double ribbed Lexan® gate boards
- Continuum's structure is welded extruded aluminum
- Adjust weights manually to meet official pullover force at 5 heights

### BENEFITS:

- Button latch design allows for quick and painless raising and lowering of the gate board (patent pending)
- The gate board is directly over the pivot point (tip-over-fulcrum) creating the safest, fastest hurdle in the world
- Hearty design will withstand all conditions and use
- Legs are designed to nest, allowing better stack ability and portability

**Warranty:** 5 year warranty from date of sale with original invoice
